📍 VADODARA, GUJARAT, INDIA

🌐 https://papagulf14.github.io/

Hard Skill

- 🔧 DevOps Expertise: Kubernetes, Docker, Ansible, Terraform
- 🌐 Cloud Mastery: AWS, Google Cloud Platform
- 🛡 Security and Networking: Cisco Technologies, Load Balancing, DNS Management
- 🔄 Automation Proficiency: CI/CD Pipelines, Infrastructure as Code (IaC)
- 🤖 Scripting Enthusiast: Bash, PowerShell
- 🚀 Agile Methodologies: Scrum, Kanban
- 🌱 Emerging Tech Explorer: Serverless, Microservices Architecture

Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking

Achievements

- Google Developer Educator (Android)
- Google Cloud Innovator
- Cisco Insider Advocate
- Certifications from Stanford and Harvard University
- Authored the book "Tricks for You: Windows OS"
- Created an Udemy course on "All About Domains and Hosting"
- Contributed to courses and content on Tutorialspoint

About Me

🚀 Crafting Digital Excellence with Code and Innovation 🚀 Greetings, tech aficionados! I'm Prakhar, a seasoned Engineer with a passion for seamlessly integrating innovation, code, and reliability. My expertise ranges from orchestrating DevOps wonders to unraveling data's mysteries, all while infusing a touch of networking mastery. Join me in my quest to architect robust infrastructures that power seamless user experiences.

Professional Experience

Infosys India Limited | Systems Engineer (FSDCG)
10/2022 – Present

Key responsibilities:
- Collaborated with cross-functional teams to architect and implement robust, scalable systems, ensuring high availability and optimal performance.
- Leveraged DevOps tools like Kubernetes and Docker to streamline deployment processes, reducing time-to-market by 25%.
- Contributed to the development of CI/CD pipelines that increased development efficiency and minimized production incidents.
- Utilized data science techniques for real-time monitoring and predictive analytics, enhancing system insights and proactive issue resolution.
- Led the integration of Actimize solutions, providing comprehensive fraud detection and anti-money laundering capabilities for multiple banking clients based out in UK, North america and APAC region.
- Designed and deployed Cisco-based networking solutions, reducing latency by 30% and elevating application responsiveness.
- Spearheaded the adoption of DevOps practices, slashing deployment time by 40% and fostering seamless collaboration across teams.

The Advertisement Company | Junior Analyst
01/2022-09/2022

Key responsibilities:
- Looked at financial performance and identified trends
- Developed Statistical models for the data provided

Education Background

- **ITM UNIVERSE VADODARA**
  B.E in Computer Science Engineering
  Completed in 2022

- **KV ONGC VADODARA**
  SSC & HSC
  Completed in 2018 & 2016
